

# ATTEND A PUBLIC INFORMATION CENTRE TO LEARN ABOUT THE ALL SEASON COMMUNITY ACCESS ROAD BEING PLANNED BY MARTEN FALLS FIRST NATION

## WHAT'S HAPPENING?

Marten Falls First Nation (MFFN) is a remote First Nation community in northern Ontario, located at the junction of the Albany and Ogoki rivers, approximately 170 km northeast of Nakina, Ontario and Aroland First Nation.

MFFN has a winter access road but it isn't reliable and makes transportation of goods and people difficult. All season road access connecting MFFN to the existing provincial highway network is needed to improve the well-being of the community. MFFN has started a Provincial Environmental Assessment (EA) and Preliminary Design Study to assess the potential impacts and benefits related to the proposed Community Access Road.

## WHAT IS THE PROCESS?

MFFN, in agreement with the Ministry of the Environment, Conservation and Parks (MECP), is preparing an Individual EA for the proposed all season Community Access Road. The EA will follow a community-led approach, meaning that the MFFN community membership helps to develop solutions and advance decisions about the proposed road. MFFN—as the proponent or owner of the Project—has formed a Project Team that includes MFFN members and acts with guidance, direction and input from the MFFN Chief and Council, MFFN Community Member Advisors and MFFN membership.
