

## Join us for the Marten Falls First Nation (MFFN) All-Season Community Access Road Public Information Centre #5: Existing Conditions Report and Route Selection Milestone

Join us to learn about and provide feedback on:

- Updates since Public Information Centre #4, including what we've heard and how feedback is being considered;
- Update on what we heard at the Aboriginal and Treaty Rights and Interests (ATRI) Forum and plans for the next forum;
- Update on existing conditions results for completed studies;
- How Indigenous Knowledge is used and how it informs the process;
- Achieving the next major milestone: Identifying the preferred route and how route alternatives will be assessed, recommended and a preferred route chosen;
- Cumulative effects assessment and why it is important; and
- Next steps and future opportunities to get involved.

**Join us and share your feedback, ideas and values related to the proposed all-season access road.**

### About the Project

MFFN is a remote First Nation community in northern Ontario, located at the junction of the Albany and Ogoki rivers, approximately 170 km northeast of Nakina, Ontario.

MFFN Community Access Road is a proposed all-season road that will connect MFFN to Ontario's provincial highway network in the south, increasing access and helping foster economic development and improve quality of life for community members. The Environmental Assessment / Impact Assessment will assess the potential impacts and benefits related to the proposed Community Access Road.

# MARTEN FALLS FIRST NATION ALL - SEASON COMMUNITY ACCESS ROAD

## Understanding the Road's Potential Impacts

MFFN is preparing an Individual Environmental Assessment / Impact Statement for the proposed Community Access Road. On October 8, 2021, the Ministry of the Environment, Conservation and Parks (MECP) approved the Terms of Reference (ToR) with amendments.

The federal Tailored Impact Statement Guidelines were issued on February 24, 2020 and the federal government granted an extension on January 13, 2023. This will be the fifth Public Information Centre held to support the identification of the preferred route milestone of the Impact Assessment and Environmental Assessment processes.
