

MARTEN FALLS FIRST NATION
COMMUNITY ACCESS ROAD

Field Notice

November 2026
Advanced Early Works

Issued: November 18, 2026

Work is scheduled to start on November 24, 2026 (pending weather)

What's Happening?

To support activities related to upcoming construction activities of the Marten Falls Community Access Road, vegetation clearing activities are anticipated to begin under two programs, **Geotechnical Investigations Tree Clearings** and **Pre-Construction Tree Clearings**.

These vegetation clearing activities will occur in designated areas of the Community Access Road corridor to support upcoming construction activities (see the attached maps). The Pre-Construction Tree Clearing signifies the beginning of construction of the Community Access Road.

Geotechnical Investigations Tree Clearing

The Geotechnical Investigation vegetation clearing will support borehole drilling.

What to expect?

You can expect to see and hear chainsaws and crews working in designated Geotechnical Investigation sites along the Community Access Road.

When: Vegetation clearing is expected in the Geotechnical Investigation sites from **November 24 to December 15, 2026**, pending weather.

Pre-Construction Tree Clearing

Pre-construction vegetation clearing will support aggregate collection for upcoming construction activities along the Community Access Road.

What to Expect?

Crews will use forestry equipment and vehicles to safely remove and transport vegetation from approved work areas. Along these work sites you can expect to see and hear this forestry equipment and crews.

When: Pre-construction tree clearing is expected to begin on December 16, 2026. This work is subject to change pending weather conditions.

Where?

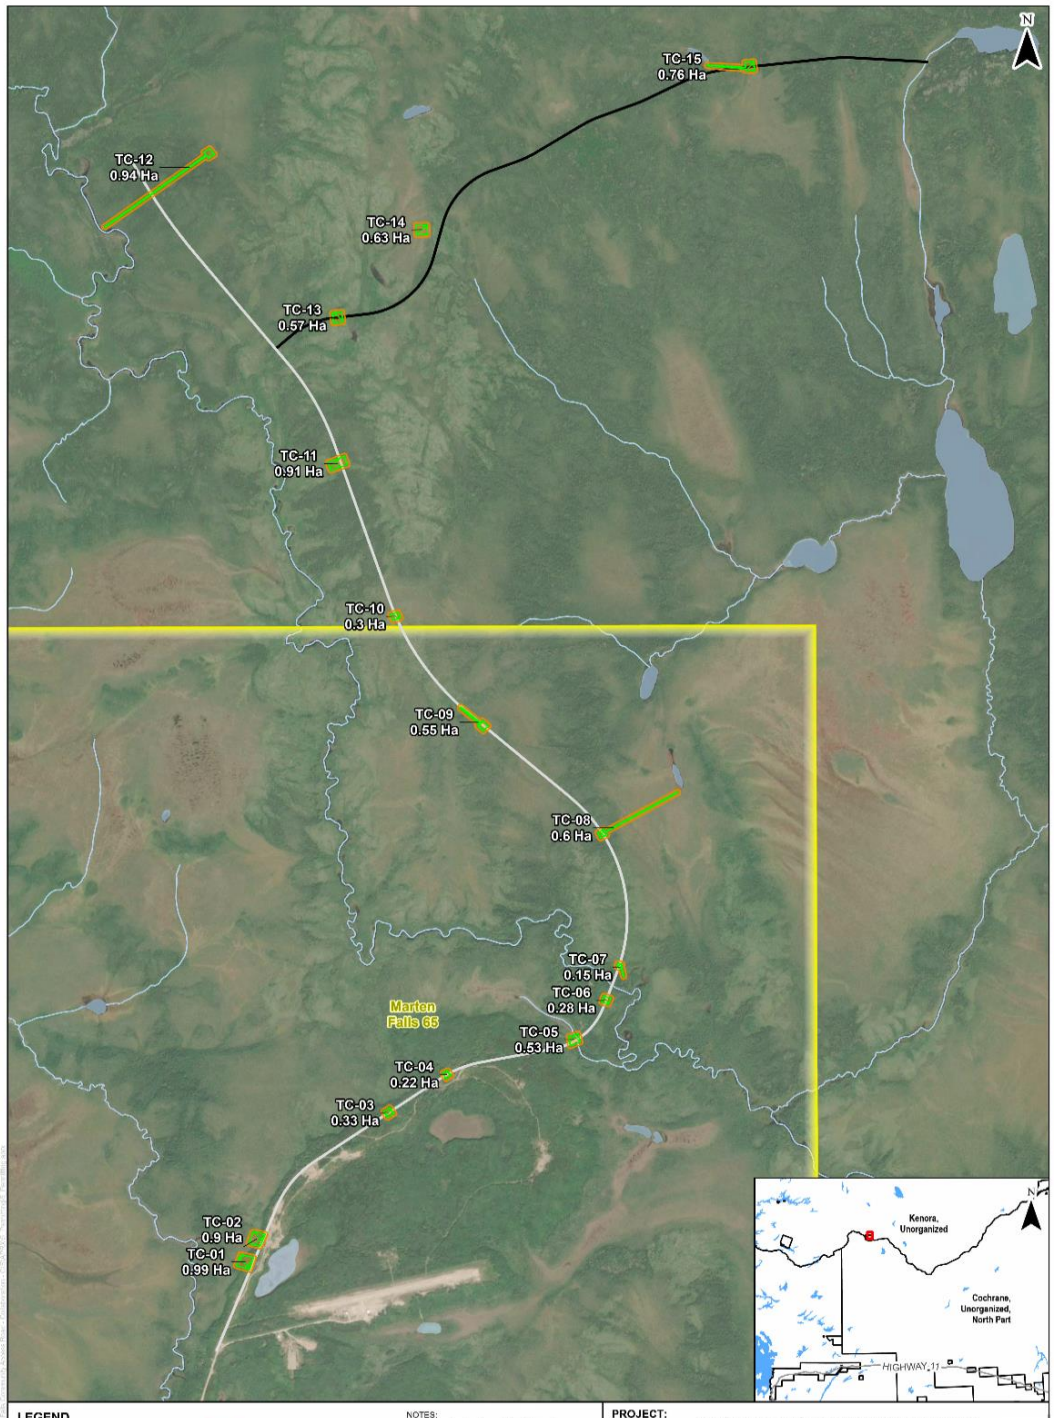

See the next pages for maps of the activity areas.

Contact Information

You are welcome to contact the Marten Falls Community Access Road Project Team at any time with questions or comments.
